## VINO ARGENTINO

### Mendoza

Argentina's most important wine region, and the world's premier source for Malbecs. Producing 70% of all Argentinian wine and arguably the world's largest growing region.

Located at the foot of the Andes mountain ranges, it has two main sub regions...

**Lujan de Cuyo**, Argentina's first Appellation of Origin, home to century old vines, producing fruit-forward, elegant wines with a sweet spice.

**Vallé de Uco**, Higher in altitude, warm days and cool nights produce grapes with higher acidity, structure and complexity. Reds from this area have the greatest potential to age of all Mendoza wines.

### Cafayate, Salta

Home to the world's highest vineyards, averaging 1700m above sea level. Altitude is what defines the terrior of the region making it suitable for viticulture, despite its close proximity to the equator. Produces Torrontes, Malbec and Cabernet Sauvignon of exceptional quality, colour and purity

### Rio Negro, Patagonia

A cool climate region, being one of the southern-most wine growing regions in the world. Produces rich fruit flavours and balanced acidity. Best known for it's legendary Pinot Noir.
